Summary

I'm a computer science graduate working as a Software Engineer with more than 2 years of experience building web based software. My expertise lies in working with SaaS based products that solve management challenges by organizations. I have a good work ethic and an aptitude for problem solving, working with an attitude to deliver high quality results. I'm looking for a role that allows me to showcase my skills and also have a real impact on the world.

Work Experience

Appsierra Solutions Pvt. Ltd.

Feb 2022 - Present

Associate Software Developer

- Designed, developed and maintaining **API's** and **microservices** using **NodeJS**, **ExpressJS**, **NestJS** with emphasis on efficiency, security and synchronisation for multiple SaaS platforms.
