Summary

Innovative Software Engineer with a strategic mindset and a strong foundation in designing and developing high-performance APIs and microservices. Transitioning to a Product Manager role with 2 years of experience in backend development, emphasising security, scalability, and exceptional user experience. Skilled in leveraging a diverse tech stack to drive product innovation, improve team collaboration, and deliver customer-centric solutions. Eager to apply technical expertise, analytical skills, and a passion for innovation to lead cross-functional teams and drive product success.

Education

Bachelor of Engineering in Computer Science.
Central University of Kashmir, India | 2017 - 2021
CGPA: 4.71, Scale: 6

Professional Experience

Associate Software Developer
Appsierra Solutions Pvt. Ltd, Noida, India | 2022 – Present

- Led the design, development, and enhancement of key features for a SaaS product catering to the recruitment industry.
- Collaborated closely with cross-functional teams including UX/UI designers, developers, and QA testers to ensure seamless integration of new features.
- Participated in daily scrum meetings, sprint planning and followed Agile methodologies for timely delivery.
- Spearheaded the design, development, and maintenance of high-performance APIs and microservices using NodeJS, ExpressJS, and NestJS for multiple SaaS platforms.
- Engineered a robust Role-Based Access Control (RBAC) system in a multi-tenant environment, fortifying security and access control.
- Led the development of PostgreSQL databases, integrating PrismaORM for optimised data management along with NoSql databases such as MongoDB.
- Implemented RabbitMQ and REDIS for efficient queuing and caching, significantly enhancing system scalability.
- Pioneered real-time communication and notifications using Socket.IO, elevating the overall user experience.
- Conducted comprehensive API testing using Postman, scripting test cases to ensure software reliability.
- Crafted highly responsive Single Page Applications with ReactJS and NextJS, emphasising speed, design, and SEO.
- Expertly integrated APIs with a focus on data validation and secure handling of user data.
- Managed version control efficiently using Git/GitHub/Azure, promoting seamless collaboration among development teams.

- Utilised Azure Suite for task management, performance tracking, and pipelines, optimising project efficiency.
- Integrated 3rd party APIs like Zoom for seamless video interactions.

Junior Software Developer

Edlyne Time Pvt. Ltd | 2021 – 2022
- Designed and developed user interfaces using HTML, CSS, JavaScript, and jQuery, enhancing the company's web presence.
- Developed a custom backend Content Management System using Django and Python, streamlining content management.
- Managed user authentication and authorization, ensuring robust data security.
- Successfully integrated APIs for real-time stock market data, contributing to real-time financial data updates.
- Employed Git/GitHub for version control, facilitating collaborative software development.

Technical Skills

- Programming Languages: JavaScript, Python, C++
- Web Technologies: NodeJS, ExpressJS, NestJS, ReactJS, NextJS, HTML, CSS, jQuery, Socket.io.
- Databases: PostgreSQL, PrismaORM
- Messaging Systems: RabbitMQ
- Caching: REDIS
- CMS: StrapiCMS
- Tools:, Postman, Git, GitHub, Azure
- Cloud Services: Azure Suite
